“Reliable OEM Partner for Original, High-Quality and User-Friendly Adjustable Beds — Bringing Good Value and High-Tech Sleep Solutions Worldwide.”

OEM/ODM MANUFACTURE

COMPANY PROFILE

Founded in 2004 in Dongguan, Guangdong, our group operates a 25,000 sqm modern factory with 150 skilled employees, serving over 100 global customers. With nearly two decades of expertise in OEM/ODM manufacturing, we have earned a strong reputation for delivering **high-quality, reliable, and user-friendly furniture solutions**.

PRODUCT FOCUS

Since 2012, we have specialized in **Adjustable Beds & AI Sleep Solutions**, combining advanced automation, patented technologies, and professional R&D. Our products are trusted by international clients and widely used in homes, elderly care, hotels, and engineering projects. We position ourselves as an **OEM/ODM Factory for Adjustable Beds & Smart Sleep**, offering **original, innovative, and high-value solutions** tailored to global market needs.

VISION & VALUES

Driven by integrity and innovation, we aim to become a world-class manufacturing base in the electric bed industry — **helpful, happy, and high-tech**, setting new standards for smart sleep solutions worldwide.

Smart Bedroom Solution

Smart IoT Integration
Integrates smart beds into IoT platforms, allowing users to create personalized scenarios and synchronize with devices such as lights and motorized curtains — delivering a truly customized smart bedroom experience.

Multi-Platform Control
Supports mobile apps, smart speakers, and smart displays, with tailored integration for major IoT platforms including Huawei, Xiaomi, Alibaba, Tuya, and Amazon.

App/Miniprogram Control
The mobile app or miniprogram replaces traditional remotes, eliminating the problem of misplaced controllers while providing full bed control functionality. A built-in timer can gently wake users by raising the bed or starting a massage, or lower the bed to support better posture and healthier routines. The interface can be customized to user preferences, and Siri voice commands are supported for iPhone users.

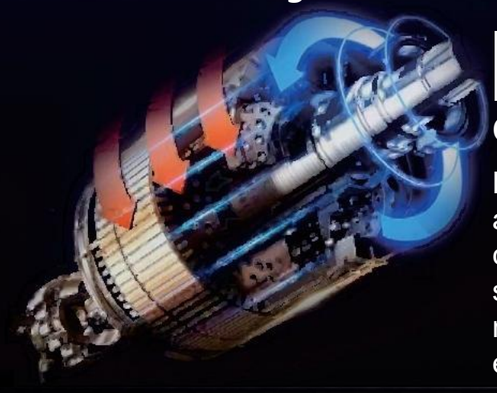

Electric Mattress Series

Build dreams for homes and connect with countless families. We dedicate ourselves to perfecting every detail.

1.Deep Sleep Mode
2.Zero-Gravity Mode
3.One-key reset
4.Anti-Snoring Mode
5.Vibration Massage
6.Reading Mode
7.Movie-Watching Mode

DEWERT OKIN

OKIN Brand Motor:

Powerful and smooth lifting, with a stable and bump - free ascent and descent. It comes with a low - frequency massage system, operates with extremely low noise without disturbing sleep, saves energy, has low loss, and is durable.

KD004-B1

Product Functions
The backrest can be flexibly adjusted within a range of 0 - 55° , and the leg rest can be freely adjusted within a range of 0 - 35° .

Product Advantages
1. All-inclusive electric mattress design, both aesthetically pleasing and practical.
2. Can be directly placed on the bed board for use, with convenient installation.
3. Equipped with independent lifting functions for the backrest and leg rest, meeting diverse needs.
4. Made of high-quality steel, with strong impact resistance and durability.
5. Passed the lifting aging test for over 10,000 times, ensuring stable and reliable quality, giving you peace of mind.

Mattress Configuration (Customizable according to customer requirements)
1. The knitted fabric uses a three-in-one quilting process, with a soft and comfortable texture.
2. Made of natural latex material, environmentally friendly and healthy.
3. Filled with high-density sponge, providing good support.

Optional Configurations
1. Motors: German OKIN motor, Haojiang motor, ensuring powerful performance.
2. Control systems: Wired remote control, wireless remote control, Sleepace system, offering convenient and flexible operation.
3. Features such as voice control, APP control, vibration massage, LED lights, USB ports, sleep monitoring, and intelligent anti-snoring are all available to meet your personalized needs.

Size:900x2000x280mm (Twin/Full/Double/Queen/King)
